Once again this year, the Architects' Association of Catalonia is opening its doors during the festive season and organising a series of activities to bring architecture closer to the general public, especially children.

The Christmas activities will kick off on 21 December with the **Christmas Carols Workshop** [2]. This fun activity is coordinated by the Choir of Catalan Architects!

The COAC is taking part for the third time in **The City of Dreams** [3] by organising architectural workshops. From 27 to 30 December and 2 to 4 January, come along to the Fira de Barcelona to build a healthy, green, inclusive city where we can make our dreams come true!

Finally, on 31 December, the **Large-Scale Construction Workshops** [4] will be back in Plaça Nova. Using the Kapla game, we will be building some amazing constructions with wooden pieces! There is one session between 11am and 1pm and another from 4pm to 6pm.

This year, the **"Young Architects"** ^[5] activity will take place as part of the Vic Children's Festival in a new format. It will be a way of bringing architecture even closer to children as well as giving them more activities to enjoy! This activity will be held on 27, 28, 29 and 30 December and on 1, 2 and 3 January at the trade fair venue El Sucre.
