The exhibition includes 42+1 photographs taken by Eugeni Abella Asensio, captured during the years 2017, 2018 and 2022 at the Oscar Niemeyer International Cultural Center in the city of Avilés.

The images on display are an intentional and very personal view of the author with the aim of highlighting the splendid architecture that Niemeyer designed for Avilés, being the only work by the Brazilian architect that we can enjoy in the entire Spanish state.

On **Thursday, February 2, there will be a conference** with projections on the most emblematic architectural work of Oscar Niemeyer (1907-2012). The talk will be given by Pere Marsé Ferrer, architect.

Eugeni Abella Asensio

Photographer interested in capturing works of architecture and with an extensive resume as a creator of suggestive images that he has exhibited in several individual and collective exhibitions.

Experienced in analog photography, with its complex chemical processes, he has perfectly adapted to new digital technologies, offering surprising results.

He has worked at the Pedret Photographic Laboratories in Barcelona. He began his photographic studies at the School of Photographic Studies of Catalonia. Member of the Photography Section of the U.E.C of Barcelona; former photographic member of the Can Basté Civic Center; Firart from Sant Cugat del Valles; from the photographic group "La Cafetera"; of the Civic-Photo Collective and the Torre Llobeta Photography Group.

Pere Marse Ferrer

Architect titled in 1976 by the ETSAB with a specialty in architecture. Member in recent years of the Hélice Studio of architecture and urbanism, located in Vilafranca del Penedès. Architect hired by the municipal administration in several towns in Alto and Baix Penedès. He has carried out and published different research studies on the urban planning and architecture of his hometown of Vilanova i la Geltrú.

ATTENTION: Due to the works in Plaça Nova, this exhibition will end on Wednesday 25th August. We apologise for any inconvenience.

With its innovative ideas, especially in the field of social housing, the city of Vienna has long been a pioneer in the global pursuit of new strategies for the design and implementation of forward-thinking urban developments and ways of living. Building on urbanistic and social aspects, Vienna has not only constructed new projects with distinctive qualities throughout the city but also founded and revitalized entire quarters. With their historical roots in 'Red Vienna,' these concepts signal dynamic opportunities to enhance the quality of life in a contemporary metropolis by creating model living environments.

The Vienna Model: Housing for the Twenty-First-Century City shines the spotlight on sixty prototypical projects from the last hundred years, with a special focus on the public art that has complemented the city's housing since the First Republic.

The exhibition, curated by Wolfgang Förster and William Menking, designed by MVD Austria and organised in Barcelona by Lorenzo Kárász, director of Guiding Architects Barcelona, runs from July 15 to September 18, 2021 at the COAC headquarters, Plaça Nova 5, Barcelona. On July 15 at 5pm an **inaugural debate** will take place with **Bettina Götz and Richard Manahl** from the Austrian architectural studio ARTEC and architect and Professor in History and Theory of Architecture **Josep Maria Montaner**.

COMPLETE CAPACITY in the inaugural debate . Follow the session [here](#).

Visiting hours for the exhibition are from Monday to Friday from 10am to 7pm and Saturdays from 10am to 2pm.
