Within the cultural programming of the AVANTGUARDA cycle, we have the opportunity to listen to Slow Studio ^[3], where Jade Serra will offer us a masterclass on the topic of ecology, with the title 'Bioconstruction and bioclimatism'. The event is presented by Anna Castellà from Arjub.

With more than ten years of experience in Sustainable Architecture, Slow Studio puts the quality of life at the center of everything we do. From their research department, they share the knowledge that they believe is what makes them human.

At the end of the masterclass there will be a dinner-colloquium with the speaker at the Barhaus restaurant. You can sign up by sending an email to comunicacio.tar@coac.net ^[4].
Dinner price €22.

The AVANTGUARDA cycle is divided into four main sections: environmentalism, experimentalism, communicationism and academicism. The format of these four sections and on different days will be that of a conference [C], a debate group [G] and a master class [M] per month.
